

MODULE- 2: PRESENTATION

1. Cover Letter

Focus: Connecting your skills to the specific needs of the company.

Dear Sir/Madam,

I am writing to express my strong interest in the Python Backend Developer position at Infosys. With a background in Computer Science and Application and a proven track record of building scalable server-side logic, I am confident that I can contribute significantly to your team's success.

In my previous projects, I successfully designed and implemented RESTful APIs and managed complex database schemas using SQL, which optimized data retrieval speeds and improved overall system performance. I admire Infosys's commitment to building high-performance, scalable infrastructure and am eager to bring my expertise in Python, Django/Flask, and backend optimization to your organization.

Thank you for your time and consideration. I look forward to the possibility of discussing how my technical skills and passion for clean code align with your needs.

Sincerely,

Priyanshu Chauhan

2. Portfolio Introduction Letter

To Whom It May Concern,

This portfolio represents a curated collection of my work in backend software development over the course of my technical training and projects. My approach focuses on writing clean, maintainable code and optimizing server-side performance, ensuring that every project not only meets but exceeds technical objectives.

As you review these samples, you will see a consistent emphasis on efficient database management and robust API development. I hope these pieces provide insight into my logic-driven problem-solving process and my ability to deliver high-quality, scalable results under tight deadlines.

Best regards,

Priyanshu Chauhan

3. Letter of Appreciation / Recommendation

Dear Sir/Madam,

It is my pleasure to recommend Parth for the position of Python Backend Developer. During our time working together at Infosys, I was consistently impressed by their logical approach to complex problem-solving and dedication to the team.

Parth played a pivotal role in SVASTHA, where they architected the backend logic and integrated third-party APIs with exceptional precision. Beyond their technical skills in Python and database optimization, they are a supportive teammate who elevates the morale of the entire department through clear communication and a collaborative spirit.

I recommend them without reservation and am confident they will be a valuable asset to your engineering team.

Sincerely,

Priyanshu Chauhan
Python Backend Developer

4. Experience Certificate / Employment Verification

To Whom It May Concern,

This letter is to certify that Priyanshu Chauhan was employed with Infosys from 02-05-2020 to 02-02-2026.

During his tenure, Priyanshu Chauhan served as a Python Developer. His primary responsibilities included designing and implementing scalable backend services and collaborating with cross-functional teams to integrate user-facing elements with server-side logic.

Priyanshu performed his duties with professionalism and a strong commitment to code quality. He was a valued member of our development team, consistently demonstrating technical proficiency and a collaborative mindset.

We wish him the best in his future endeavors.

Sincerely,

Mr. Patel
Infosys

5. Letter of Interest (Cold Outreach)

Dear Mr. Patel,

I have long followed Infosys's work in the software development sector, particularly your recent SVASTHA. I am writing to express my interest in potential future openings within your Engineering team.

I am a Python Backend Developer with expertise in designing scalable APIs and managing robust database systems. While I understand there may not be an immediate opening, I would welcome the opportunity to connect and discuss how my background in clean backend architecture might benefit your team as you grow.

Best regards,

Priyanshu Chauhan

6. Follow-Up Letter (Post-Interview)

Dear Ms. Patel,

Thank you for the opportunity to interview for the Python Backend Developer position earlier today. I truly enjoyed learning more about TOPS TECHNOLOGIES and discussing the goals for the backend team.

Our conversation regarding Framework further solidified my interest in the role. I am confident that my experience in Python makes me a great fit for the challenges we discussed. I look forward to hearing from you regarding the next steps.

Best regards,

Priyanshu Chauhan

7. Job Acceptance Letter

Dear Mr. Patel,

I am delighted to formally accept the offer for the Python Backend development position at Infosys, Ahmedabad.

As discussed, my start date will be 14-05-2026, and I accept the starting salary of 50,000 rs along with the benefits package outlined in the offer letter. I look forward to joining the team and getting started.

Sincerely,

Priyanshu Chauhan

8. Job Declination Letter

Dear Mr. Patel,

Thank you very much for offering me the Python Backend developer position. I truly appreciate the time you spent interviewing me and sharing more about Infosys.

After careful consideration, I have decided to accept another offer that aligns more closely with my current career goals. This was a difficult decision, as I have great respect for your organization. I wish you and the team the very best.

Sincerely,

Priyanshu Chauhan

9. Leave-of-Absence Request

Dear Ms. Patel,

I am writing to formally request a leave of absence from 14-05-2026 to 20-05-2026. I am requesting this time due to family function.

Prior to my departure, I will ensure that all my current tasks are up to date and provide a hand-over brief for Parth, who has agreed to cover my urgent responsibilities. Thank you for your understanding and support.

Sincerely,

Priyanshu Chauhan

10. Resignation Letter

Dear Mr. Patel,

Please accept this letter as formal notification that I am resigning from my position as Python backend developer at Infosys. My last day will be 30-05-2026.

I want to thank you for the opportunities I've had during my time here. I am committed to ensuring a smooth transition during my final weeks and am happy to assist in training my replacement or documenting my workflows.

Best regards,

Priyanshu Chauhan
